WHITTIER, Calif., November 20, 2006 - Credit Union of Southern California (CU SoCal) awarded over \$35,000 in grants for the 2006 Student Impact Grant (SIG) program. There were 119 teachers within our eligible school districts that received grants up to \$300 this year for use at the student level.

"It's inspiring to help fund the creativity of our many educators as they enrich the educational experiences of students in our community. This year, grants will be used to expand physical education programs, introduce new technologies into the classroom and make dozens of valuable class projects possible," said Dave Gunderson, CU SoCal President/CEO.

The SIG program allows teachers to submit applications for grant money to use in their classrooms. The short application requires a description of how the funds will be used, how it will impact the students and why the request is unique. Grants are awarded based on this criteria by a panel of former SIG recipients and CU SoCal Board volunteers.

CU SoCal is proud to serve the local community by being a partner in education. The SIG Grant program is open to certificated employees, K-12, in public or private schools in the 26 school districts served by the credit union. Visit cusocal.org or call toll free 866 CU SoCal, 866.287.6225 for further information. Membership is open to those who live, work, worship or attend school in North Orange County, the San Gabriel Valley and all of the cities in between.
